

Omni Construction

CAPABILITY STATEMENT · DISASTER DEBRIS REMOVAL

Louisiana-based · Responding nationwide · (985) 863-2991 · brian@omniconstruction.org · omniconstruction.org
Omni Pinnacle is part of the Omni Construction organization.

Company overview

Omni Construction is a Louisiana-based disaster debris removal contractor serving cities, counties, parishes, state agencies and federal agencies nationwide after hurricanes, tornadoes, wildfires, floods and ice storms. We handle the full debris mission, from pre-event planning and emergency road clearance through removal, reduction, disposal and FEMA-ready closeout documentation.

Core competencies

- Standby (pre-positioned) debris removal contracts offered to agencies, and pre-event planning
- Emergency road clearance ("the Push")
- Right-of-way debris removal, hauling and disposal
- TDSR / debris management sites: grinding, air curtain burning, segregation, restoration
- Hazardous trees, hanging limbs and stumps
- Waterway debris, vehicle and vessel removal
- Private property debris removal and demolition (when authorized)
- Truck certification, load tickets, tower logs and closeout records following FEMA PAPPG v5.0 and the PA Debris Monitoring Guide

Storm history

Teams within the Omni organization have worked disaster debris recovery after Hurricane Katrina (2005) and Hurricanes Gustav and Ike (2008). Past clients have included cities and towns, parishes and counties, state transportation departments, water and drainage districts, and federal agencies. Contracting entity, dates and references are available on request.

Differentiators

- Debris removal only: one focus, start to closeout
- Willing to accept 2 CFR 200 Appendix II provisions and certifications
- Unit-price or lump-sum; T&M only within 2 CFR 200.318(j) limits
- Louisiana roots with nationwide response

Past performance describes historical events, not current contracts; contracting entity, dates and references are available on request. FEMA and USACE do not endorse contractors; FEMA determines eligibility and reimbursement. Credentials and references are available on request.
